Technical Skills

- **Languages:** Java, JavaScript, Python, HTML, CSS
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Spring Boot, Tailwind CSS
- **Databases & Tools:** MongoDB, MySQL, Git, GitHub, Vercel, Render, Postman
- **Concepts:** REST APIs, JWT Authentication, API Integration, OOP, Data Structures & Algorithms (50+ problems solved on LeetCode)

Projects

DeepGen AI – Multi-Modal AI Platform | [Live Demo](#) | [GitHub](#) 2026

- Integrated multiple AI APIs (image, audio, video generation) to build a unified multi-modal platform
- Developed responsive frontend with React.js and Tailwind CSS, with real-time generation status
- Integrated MongoDB Atlas for data persistence and managed API-based workflows
- Deployed frontend and backend services on Render

Weather-Based Disaster Detection System (Hackathon Project) 2025

- Built a real-time disaster prediction system using weather APIs and historical climate data
- Implemented API-based monitoring and alert logic to provide early warnings for potential disasters
- Focused on disaster analysis and real-time weather insights, improving situational awareness

Leadership & Activities

Team Leader – Smart India Hackathon (SIH), LNCT University Bhopal 2025

- Led a team of 6 members through all internal college rounds – presentation and competition rounds – while coordinating tasks, deadlines, and project deliverables
- Delegated responsibilities, tracked milestones, and ensured timely submission of deliverables to successfully advance in the competition

Achievements

- Spring Data JPA with Spring Boot Certification – Infosys
- Cybersecurity Fundamentals – Microsoft
- Explore AI Basics & Generative AI – Microsoft
- Basic Japanese (Hiragana)

Education

Diploma in Computer Science Engineering – CGPA: 8.4

Lakshmi Narain College of Technology University, Bhopal

2023–2026
